

# 1000+ TOUGH POUNDS

**Our Quality Control Department Takes Its Job Seriously**

Sol-O-matic® has been the industry leader in providing rugged, attractive Laundromat furnishings for over 40 years.

We have combined fiberglass, and its ability to withstand humidity, chemicals, and rough treatment, with other quality components to give laundry professionals special equipment designed to do its job without constant maintenance.

Your customer's safety is as important to us as it is to you. Our products are designed to offer the special features you need to provide safe customer accommodations. For example: All Sol-O-matic® seats and tables are available for bolting down, a practice we highly recommend where abusive use is possible.

Both colorful and attractive, our furnishings make customers feel welcome and at home while withstanding their abuses year in and year out.

**Get every hard earned dollar out of your investment. Buy tough, buy smart, buy Sol-O-matic®.**
